

# Upton Hall School FCJ

# Year 7 Curriculum Booklet 2023-2024

# Introduction

## Dear Parents

The purpose of this booklet is to give you information about the opportunities on offer to our Year 7 pupils. We hope that you will be able to use this information to support your daughter through the first year of her secondary education and to help her make good progress and to enjoy school life.

Year 7 is a challenging year: the structure of the school day in secondary school is very different to the one your daughter has been used to in primary school. The day is longer, she will meet more staff and she will have to move between lessons, remembering to take the appropriate books and equipment with her. By the end of the year, she will take all this in her stride but during the year there will no doubt be times when she feels very tired as a consequence of these demands. If you have a detailed understanding of her school programme you will be able to encourage and support her.

From the outset it is vitally important that all pupils are involved in at least two extra-curricular activities. These activities will provide her with the opportunity to meet different pupils and develop interests that will complement the learning that takes place within the classrooms. Many of these activities take place at lunchtime and the lunch break is structured to enable pupils to have the time to become involved. A good lunch and some relaxing or stimulating activities usually give the girls the energy they need to take them through the afternoon.

Use our website to find out what is happening in school: for example, there will be reports of recent events and trips involving pupils, discuss these with your daughter to give her a sense of the opportunities that will come her way as she moves up the school. In this way you prepare her for what lies ahead and help her to develop the confidence to seize each opportunity as it arises.

We hope that you enjoy reading this booklet and, if you have any suggestions for its improvement, please pass them to Ms A Murphy, Deputy Head.

Mrs A Gaunt HEADMISTRESS

# Vision Statement FCJ Schools

Inspired by the Gospel and true to Marie Madeleine's founding ideal, our vision is that FCJ schools are communities of personal and academic excellence.

Strong in companionship, the unique giftedness of every person in these faith communities is recognised, nourished and celebrated.

Our hope and expectation is that, through God's grace working in us all, each young person grows into their best self, with zest for life and the generosity and confidence to use their talents and gifts in the service of others.

This vision is encapsulated in our six key FCJ values:

**Excellence** is an inclusive value in an FCJ school, incorporated in every aspect of school life and living. The ideal of excellence 'for God's greater glory and salvation of souls' pervades Marie Madeleine's writings and recommendations.

**Companionship** is an all-pervading quality present when we work together in an atmosphere of support and love. Companionship is breaking the bread of life together.

**Dignity**: It is of the essence that the dignity of each person is recognised, as that of a human being made in the image of God. Everyone is genuinely listened to and what they say is heard.

**Justice:** being in right relationship with God, self, others and creation.

**Hope** is a faith-based attitude of mind and heart which enables us to think, speak and act in accordance with Gospel beliefs and FCJ values. Hope inspires and enables us to persevere in the face of difficulties and disillusionment.

**Gentleness:** Above all, through God's grace, the whole is marked by gentleness, the gentle strength that comes from 'the fruit of quiet self-possession that has been gained through daily growth in self-understanding through the light of grace'.

# School Motto

**Age quod agis** Whatever you do - do well! In Year 7 we want to offer a curriculum that ensures that our pupils fulfil the aspirations expressed in our Mission Statement by becoming:

- successful learners who enjoy learning, make progress and achieve
- confident individuals who are able to live safe, healthy and fulfilling lives
- responsible citizens who make a positive contribution to our school and to society.

In addition to the subjects above a wide choice of **extra-curricular activities** are available to your daughter to help her personal development and we expect her to participate in at least two of these activities every week. There will be opportunities for her to show that she can apply mathematical skills, high levels of literacy and ICT skills as she undertakes projects and research activities. This is known as using **functional skills**. She will also be supported to develop **Personal, Learning and Thinking Skills** to enable her to become:

- An independent enquirer
- Creative thinker
- Reflective learner
- Team worker
- Self-manager
- Effective participator

By the end of Year 7, your daughter should be able to show evidence that she can demonstrate these skills. There will also be additional activities that take place in the course of the year such as the Feast Day.

- Community participation
- Creativity and critical thinking
- Enterprise
- Healthy Lifestyles
- Identity and cultural diversity
- Global dimension and sustainability
- Technology and the media
- These experiences are known as **cross curriculum dimensions** because they will take place across a range of subjects.

At the end of Year 7, the Modern Languages Faculty will decide what language combination each student should study in Year 8. Some girls will continue Mandarin and French while others will continue French but also begin Spanish. Finally, some pupils will focus on one language in order to have a strong basis in this subject for future study. This decision will be made by teachers based on their professional knowledge of the demands of language study at GCSE and their knowledge of your daughter's aptitude for language study based on her attainment and effort grades. This decision is not an options process so there is no need to complete a form but we will write in the summer term to keep you informed.

### We aim "high" to ensure that all of our pupils make outstanding progress

We believe that by having high aspirations we are able to secure the best possible outcomes for our pupils. Ability is not fixed or innate, and we firmly believe that ability can be enhanced through the adoption of a growth mind set. Your daughter must work extremely hard in the knowledge that human qualities and intellectual skills are cultivated through hard work, effort and having the character to overcome setbacks and utilise constructive criticism. Your daughter must display tenacity and persistence when confronting challenges, see failure as a valuable part of the learning process and display a readiness and passion for learning and self-improvement. She has the potential to grow and succeed, and in order to do this your daughter must take charge of her own learning. Your daughter has clear goals and aims, and must take the appropriate steps to make sure they happen. Some pupils may feel that meeting their targets is very difficult and it is important that we encourage them to be resilient. We must work in partnership with parents to ensure that we praise the effort that pupils make and celebrate achievements in all aspects of their work.

## **Assessment without Levels**

In Years 7 & 8, pupils will be assessed regularly in all subject areas. Their assessments will take on a variety of formats including self, peer and teacher assessed tasks. After these assessments, the pupils will be categorised as 'Excellent', 'Secure' or 'Developing' in that particular topic. We will refer to these as grades. Some subjects have also chosen to provide parents with information about percentage scores alongside that of the year group. Our assessments will focus on the pupils' developing skills and knowledge. Their feedback following on from each assessment will be formative and will be focussed on what they need to do to improve.

## How will my daughter know which grade she is working at?

In English and Mathematics, our pupils undergo literacy and numeracy screening on entry to Upton Hall. Parents will receive information about how they did in these tests and you will be given some strategies to support them to progress from there. In all subjects your daughter will regularly discuss which grade she is working at and this information can also be found in her exercise books. She should be able to describe her grade and will know what she needs to do in order to progress. Your daughter will have opportunities to act upon advice received and if she is unsure of her current grade or what she needs to do in order to progress she should speak to her subject teacher.

# What happens if my daughter isn't making the progress that we would expect?

If your daughter is not making expected progress, we will ensure that she is provided with the opportunities to improve. Intervention happens predominantly in the classroom, but staff may also offer additional support which takes place outside of lessons, uses student mentors or requires attendance at a study group. If your daughter is receiving extra intervention, it will be indicated on her progress report. Information will also be available through annual reports and at parents' evenings. It is really helpful when parents discuss this information with pupils as it is often helpful for pupils to verbalise how they are progressing.

# Feedback

What will feedback look like at Upton Hall and what do I need to do to make the most of it>?

6

# **Tracking of Progress**

Your daughter will receive 2 Progress Sheets and an Annual Report throughout the course of the academic year. These documents will give the following information for each subject she is studying: -

### **Current Attainment:**

This is the grade that your daughter is currently working at, as identified by the subject teacher.

### Effort:

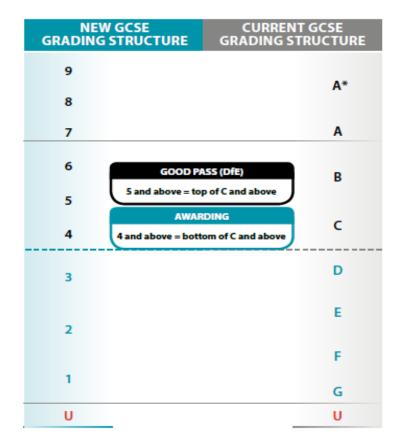

An effort grade is awarded based on the following criteria:

- 1 Outstanding
- 2 Good
- 3 Need to improve
- 4 Cause for concern

"Thorough! No matter what she undertook it was always the same, heart and soul"

Philomena Skiffen FCJ (1840 – 1898)

The curriculum that is taught and the assessments that take place throughout KS3 are designed to equip all of our pupils with the skills that they will need to be successful in the GCSE examinations. Over the past four years, GCSEs have been reformed. By the time that your daughter completes her GCSE exams in 2024, she will be awarded grades 9 - 1. The table below shows how the new and old gradings compare.

# Attitude to Learning at home

1. All homework is completed to a meticulous standard. It is always handed in on time. The pupil takes the initiative to extend her own learning and solves problems proactively, attending support or intervention sessions when needed. Test results demonstrate that highly effective revision has taken place. The pupil acts on feedback and use the advice to improve her work.

2. All homework is completed to a good standard. It is usually handed in on time. The pupil takes the initiative to seek help when necessary, attending support or intervention sessions when needed. Test results demonstrate that effective revision has taken place. The pupils usually act on feedback and uses the advice to improve her work.

3. Most homework is completed to a good standard. It is sometimes handed in on time. The pupil does not usually show initiative. Test results suggest that there has been little effective revision. The pupil does not use feedback to improve her work consistently

4. Very little homework is completed to a good standard or handed in on time. Test results suggest little effective revision has taken place. There is no evidence that feedback has been read or acted on.

# Attitude to Learning at school

1. The pupil joins in all class activities with a positive attitude. The pupil is on time to lessons. The pupil is well organized and has all the equipment/notes needed for the lesson. The pupil sustains concentration and is always focused on her learning. She asks intelligent questions and contributes to class and group discussions. She takes responsibility for her own learning. Every minute of the lesson is well used.

2. The pupil joins in all class activities with a positive attitude. The pupil is on time to lessons. The pupil is well organized and has all the equipment/notes needed for the lesson. The pupil sustains concentration and is focused on her learning, needing rare reminders. She contributes to class and group discussions. She takes responsibility for her own learning

3. The pupil sometimes needs reminding to join in with class activities. The pupil is usually on time to lessons. The pupil is sometimes organized and has all the equipment/notes needed for the lesson. The pupil sometimes loses concentration and can distract others or herself.

4. The pupil avoids some or all class activities. She is sometimes late for lessons and rarely has the necessary equipment. Her behaviour distracts others and has to be reminded to concentrate more than once.

# English

In Year 7 students are given the foundation for the skills they require to study English at secondary school level. In English Literature, they will build upon their passion for reading generated in primary school and will develop a deeper appreciation of a writer's purpose and their methods. In English Literature texts are carefully selected to facilitate student discussion of universal themes, such as love, relationships, family, grief and loss and identity, enabling them to identify with aspects of human experience they may or may not have experienced from themselves. English Language will continue to equip students with the skills they need to enable them to use their writing as a means of accurate communication, as well as encouraging them to develop their journalistic, creative and imaginative use of language.

	Content to be studied	Method of assessment
Autumn	<b>Transition Unit:</b> Students will study and discuss the Year 6 Transition Unit, 'Anne of Green Gables', by Lucy Maud Montgomery.	1. An alternative ending to chapter 1 of the novel.
	Fiction Reading and Creative Writing Unit: Tales of the Supernatural Students will read and study the late 20th century novel, <i>The</i> <i>Woman in Black</i> by Susan Hill, with a focus on setting, structure and characterisation. In preparation for creative writing students will also study the late Victorian short story, 'The Red Room' by H. G. Wells and moving image film <i>The Others</i> .	<ul> <li>2. A critical essay on the characterisation of the woman in black.</li> <li>3.A piece of narrative writing that presents a back story to explain the motives of the supernatural being in their story.</li> <li>Stretch and Challenge:</li> </ul>
Spring	<b>Shakespeare:</b> A Midsummer Night's Dream with its exploration of romantic relationships in a comedic and fantastical setting, the play provides the perfect introduction to Shakespeare's language and dramatic technique.	<ol> <li>Literary essay on the theme of love.</li> <li>Character study stage and costume design.</li> <li>Stretch and Challenge: Literary essay comparing the jealousy of two characters.</li> </ol>
	<b>Poetry: World Voices:</b> Students will study a range of seminal poets from across the world, including countries such as South Africa, Indian and the Caribbean. They will study these poems in light of their specific social history and cultural heritage, as well considering their relevance for our times.	<ol> <li>Literary essay on theme and language in the poem 'Nothing's Changed'.</li> <li>Stretch and Challenge: Students to compare the core poem to a second poem of their choice from the collection.</li> </ol>
Summer 1	<b>Non-fiction writing: Newspapers</b> A range of journalistic styles and formats are taught through analysis of contemporary newspapers and online writing conventions.	<ol> <li>Reading comprehension.</li> <li>Feature article.</li> <li>Summer exam preparation.</li> <li>Stretch and Challenge: An article with an international or global significance.</li> </ol>

Summer 2	<b>World Literature:</b> Students will study a range of literary, non-fiction and media texts which explore historical and contemporary representations of Africa.	1.Choose an area of global inequality to research and perform a discursive TED talk.
Each term	In addition to the core topics listed above, spelling, punctuation and grammar are taught in a lesson dedicated to it each fortnight.	<ol> <li>Spelling Test</li> <li>Grammar Hammer</li> </ol>
	In addition to the core topics listed above, students will spend one week a term focusing on core reading, inference and analysis skills in unseen prose and poetry texts.	<ol> <li>Question on unseen prose.</li> <li>Paragraph on theme and language in unseen poetry.</li> </ol>

The English Department assesses students in a classroom context in an Assessment Booklet [this remains in school but is available to be viewed at Parent's Evening or by appointment]. Here the class teacher will determine whether your daughter's skills in reading, writing and speaking and listening tasks are developing, secure or excellent. Detailed diagnostic feedback is given, which celebrates achievement and explains the next steps to be taken. Feedback will address both content and technical accuracy in spelling, punctuation, grammar and vocabulary. Your daughter is expected to read and act on these recommendations and to take responsibility to make progress towards meeting them on their next piece of work.

The class teacher will also monitor your daughter's draft book, to check that the school's expectations for presentation and technical accuracy are being adhered too. The *Progress Guide* at the front of their draft book provides a record of your daughter's academic progress in their Assessment Booklet.

Finally, at the beginning of each academic year, your daughter will undertake literacy screening in spelling, reading and free writing to monitor their progression in these core English skills. You will receive a record of their results by letter in October of each year. If your daughter is not making expected progress, a programme of Literacy Intervention will be offered.

#### How can I help my daughter?

Promoting reading for pleasure is the most vital form of parental support the department asks for. Restricting social media use towards the end of the evening and encouraging your daughter to read for twenty minutes every day instead, is the best way to enhance your daughter's progress in English and all her subjects. Hearing your daughter read aloud or reading to each other is still an excellent way at this age to enhance their literacy and your relationship with her.

Your daughter will also have a spelling test every fortnight, which you can help your daughter to prepare for. Please see your daughter's Google Classroom to access both the recommended reading lists and spelling tests for each year group in Key Stage 3. Here you will also find links to useful websites.

#### Enrichment opportunities Debating Club

World Book Day Art Exhibition and competition

National Poetry Day workshops and poetry competitions

Sponsored Read – Spring Holiday

Poem by Heart competition

# Maths

Students will become confident mathematicians. They will gain skills in problem solving and be able to make connections between topics. They will work in groups on a variety of engaging and interactive activities. As a result, pupils will develop resilience, sound reasoning skills and be able to articulate their learning.

	Content to be studied	Method of assessment	
Autumn 1	Number	Converting between FDP	
		Equivalent fractions	
		Improper and mixed fractions	
		Ordering FDP	
	Negative numbers	Introduction to negative numbers	
		Adding and subtracting negative numbers	
		Multiplying and dividing negative numbers	
Autumn 2	Algebra	Order of operations	
		Simplifying expressions	
		Substitution	
		Creating expressions and solving equations	
	Angles	Measuring and drawing angles	
		Basic angle facts	
		Angles in quadrilaterals and properties of quadrilaterals	
Spring 1	Co-ordinates	Plotting co-ordinates in all four quadrants	
		Plotting linear graphs, including horizontal and vertical	
		lines.	
	Handling Data	Bar Charts	
	_	Pie Charts	
		Averages and range	
		Interpreting statistics	
Spring 2	Fractions	Add and subtract fractions	
		Find a fraction of a quantity	
	Decimals	Rounding decimals	
		Adding and subtracting decimals	
		Multiplying and dividing decimals by powers of 10	
		Multiplying and dividing decimals	
Summer 1	Probability	The probability scale	
		Theoretical probability	
		Experimental probability	
	Measurement	Constructing triangles	
		Nets	
		Metric units	
	Area, perimeter and volume	Area, perimeter, volume and surface area of 2D and 3D	
		shapes	
Summer 2	Percentages	Writing one number as a percentage of another.	
		Finding a percentage of a quantity.	
	Transformations	Reflections	
		Rotations	
		Translations	
	Number Patterns	Fibonacci	
		Nth term	

Your daughter will have a folder of unit tests that will include a progress guide. The tests will have been marked by the teacher with an overall percentage awarded. Pupils are expected to work in groups to make corrections, with the class teacher going through questions the majority of the class found difficult. The pupils will have recorded their score and areas for improvement on the progress guides. Their homework books will also contain feedback and your daughter will have acted on this feedback in the form of corrections.

If your daughter has not made expected progress, they will be asked to attend an intervention session that will revisit the content of that unit test. Their tracking will report on their achievements being excellent, secure or developing according to their unit test scores.

#### How can I help my daughter?

Encourage your daughter to use www.vle.mathswatch.co.uk. This is a fantastic website that encourages our pupils to take responsibility for their own learning. It contains videos for each topic and provides plenty of practice questions to accompany the work taking place in lessons. A list of suitable clips will be inside the cover of your daughter's exercise book.

Please encourage your daughter to attend study support for help with homework and any other areas of confusion from lessons. This is a drop-in session that takes place every Tuesday, Wednesday and Thursday from 1.15pm in H7.

#### **Enrichment opportunities**

Your daughter will have the opportunity to complete monthly maths challenges. There is a prize every month for the winner.

They will have the opportunity to take part in a problem-solving event in the last term.

# Science

## Subject vision for this curriculum year

During her first year in the Science department your daughter will initially become familiar with the workings of our well-equipped laboratories. She will quickly gain the skills necessary to conduct meaningful Science investigations in order to ignite her passion for the subject. These investigations have been designed to answer some of the 'real life' questions of a young inquisitive mind.

	Content to be studied Meth	
		assessment
Autumn 1	<ul> <li>Introduction to science laboratory safety and investigation skills – pupils will become familiar with the daily workings of a science lab and the safety rules to be followed. They will then be taught investigation skills and have the opportunity to conduct experiments to hone these.</li> <li>Model of the atom and particle theory – pupils will research how the understanding of the structure of the atom has changed over time. Pupils will also be introduced to particle diagram to represent differences between solids, liquids and gases as well as elements and compounds.</li> </ul>	10 to 15 mark short exam style question marked by teacher and graded Developing, Secure or Excellent.
Autumn 2	<ul> <li>Cells – pupils are introduced to the structure of animal and plants cells. This idea is developed through discovery of the adaptations of a number of specialised cells.</li> <li>Energy – pupils will encounter several different types of energy sources and be introduced to the law of conservation of energy. They will also conduct some research into sources of renewable energy.</li> </ul>	40 mark exam style questions marked by teacher and graded Developing, Secure or Excellent.
Spring 1	<ul> <li>Reproduction – pupils will study the structures of the male and female reproductive systems. They will also study the menstrual cycle and pregnancy. Reproduction in plants will also be covered at this point.</li> <li>Elements and compounds – pupils will be introduced to the periodic table of elements and though practical experimentation, recall the differences between elements and compounds.</li> </ul>	10 to 15 mark short exam style question marked by teacher and graded Developing, Secure or Excellent.
Spring 2	<ul> <li>Digestion – pupils will identify the organs of the digestive systems and be introduced to the role of enzymes in digestion.</li> <li>Gravity &amp; Forces - pupils will work on the knowledge from KS2 investigating different force types. Force diagrams will be used to identify force types and calculate resultant forces.</li> </ul>	40 mark exam style questions marked by teacher and graded Developing, Secure or Excellent.
Summer 1	<b>Breathing – p</b> upils will be introduced to the structure and function of the breathing system and how we breath. Investigations into lung volumes and breathing rate will be carried out using data loggers. <b>Respiration –</b> pupils will link the knowledge of breathing to respiration and recall its word equation. Investigation into factors affecting respiration rate will be conducted. <b>END OF YEAR EXAM</b>	End of year examination – pupils will complete a one hour exam style question exam encompassing all topics and skills covered throughout the year.

Summer 2	<b>Mixtures</b> - pupils will investigate the differences between compounds and mixtures and how mixtures can be separated. They will also use	
	their knowledge of particle theory to identify compounds and mixtures using particle diagrams.	
	<b>Universe</b> –pupils will design a poster for display on the solar system including information on the planets and how the moon and sun interact to create night and day, the seasons.	
	interact to create night and day, the seasons.	

Your daughter will work in classwork booklets in Science which contain all lesson and homework activities as well as additional exam practice and a scientific article relevant to the topic being taught. Her homework tasks will be either self, peer or teacher assessed and should have clear targets. Her classroom assessments will be marked by her teacher and graded Secure, Excellent or Developing. Shorter assessments will have a teacher target and longer assessments will have a front cover with prepopulated targets that your daughter will highlight as in class exam feedback is being given. These will become her targets which she can address through completion and submission of the additional exam practice questions provided at the back of classwork booklets. She can also attend intervention with a member of staff if further explanation is required.

#### How can I help my daughter?

Your daughter will have the opportunity to purchase a revision guide for science at the start of the school year. This will cover the material taught in years 7 & 8. There are very helpful question pages at the end of each topic you can ask her when she is preparing for an assessment. You can also use the additional exam practice questions at the back of each topic classwork booklet.

We encourage pupils to take Science outside the classroom by visiting some of our wonderful local areas of Scientific interest. These include Tam O'Shanter Urban Farm, Chester Zoo, Spaceport at Seacombe Ferry terminal and New Ferry butterfly park. We also encourage reading in Science so have included a journal aimed at this age group and relevant to the topic being studied at the back of each booklet.

#### **Enrichment opportunities**

At Key Stage Three Science pupils can become in our STEM club which runs a variety of activities through the school year including:

Unilever Bright Futures Challenge

Growing your own in our solar dome

Steps into the NHS

DVLA decoding challenge

BP Ultimate STEM challenge

# **Religious Education**

Students will follow the newly published Religious Education Curriculum Directory. Students will explore 6 topics in Year 7. Each topic will enrich students' religious knowledge will aid their development of key literacy, evaluation and analytical skills. The Year 7 curriculum also enables students to understand, discern and respond to a range of important questions related to their own spiritual development, the development of values and attitudes and fundamental questions concerning the meaning and purpose of religious life.

	Content to be studied	Method of assessment
Autumn 1	During this term students will complete a brief	This half term a baseline
Introduction	introductory unit and then begin examining 'Creation	assessment is given to all students
unit &	and Covenant'. This unit focuses on the God who	to establish their prior

Grid€∕		

How will I know if my daughter is achieving this? Work is assessed in Religious Education throughout the year and through various methods. The assessment style used in Key Stage Three (Years 7-9) is in line with the criteria for assessment outlined by the Diocese of Shrewsbury.

An initial assessment which students are not expected to prepare for is used to establish their prior learning and knowledge in the first half term of the year. Summative assessments are conducted at key points throughout the year and teachers will use formative assessment to ensure students' clarity of understanding and progress.

Students are given progress books in Year 7 which track their progress throughout Key Stage Three and allows students, parents and teachers to see the learning journey the student has undertaken throughout Years 7,8 and 9.

How can I help my daughter?

Students are given a learning program which outlines each area covered in a specific module. This allows students and parents to clearly see the information students should have gained an understanding of during Religious Education lessons.

Websites which may aid students to consolidate or extend their learning include:

https://www.bbc.co.uk/religion/religions/

https://cafod.org.uk/

http://www.dioceseofshrewsbury.org/

Shrewsbury Diocese can also be followed on twitter: @ShrewsRCnews

Students may wish to join Pope Francis' 18 million followers on twitter: @Pontifex

Enrichment opportunities

There are multiple opportunities for Key stage three students to take their learning beyond the classroom:

- Students are invited to participate in a pilgrimage to Lourdes

# Art and Design

The Scheme of Work covers the learning objectives and outcomes specified in the National Curriculum Key Stage 3 document.

Pupils will have a diagnostic drawing test at the beginning and end of each term. A piece of homework to extend classroom learning will be given each week.

	Content to be studied	Method of assessment
Autumn 1	<b>The Elements of Art.</b> Pupils are introduced to basic mark making techniques in the first half term. They will begin the year exploring basic form and simple shape.	Diagnostic drawing tests will link to the unit theme at the beginning of each unit of work. Pupils will be awarded a grade of Developing, Secure or Excellent for each piece of class work and homework.
Autumn 2	<b>The Elements of Art.</b> As each pupil's skills develop, more detailed tonal work and higher-level drawing skills and concepts are introduced such as perspective. Drawing provides the basic foundations and building blocks of all creative processes. This enables pupils to express their ideas fluently, accurately and confidently.	Pupils will be awarded a grade of Developing, Secure or Excellent for each piece of class work and homework.
Spring 1	The Science of Art. During this term, pupils move on to explore colour theory and are introduced to water colour painting and colour mixing. Allowing pupils to express their creativity through an understanding of colour and how it can be used to enhance their work.	Pupils will be awarded a grade of Developing, Secure or Excellent for each piece of class work and homework.
Spring 2	<b>The Science of Art.</b> Pupils will be exploring this unit further. Developing a more in depth understanding this will be achieved through experimentation with tones, tints and shades.	Pupils will be assessed through the production of a water colour painting. Demonstrating their understanding of tint, tone and shade.
Summer 1	Art and the Environment. Pupils will be introduced to the Artist and Architect Friedenreich Hundertwasser. They will explore his use of colour, pattern and composition. They will take inspiration from his ideas and concepts to form the basis of their own Hundertwasser inspired designs.	Diagnostic drawing tests will link to the unit theme at the beginning and end of each unit of work. Pupils will be awarded a grade of Developing, Secure or Excellent for each piece of class work and homework.

Summer	Art and the Environment.	Pupils will be awarded a level at
2	Pupils will create a piece of textiles. Hand-embroidery	Developing, Secure or Excellent for
	and applique techniques will be used to embellish this piece of work.	their completed textile piece.
	Pupils will learn 8 hand embroidery stitches.	Summer drawing exam

At the beginning and end of each term all pupils will have a diagnostic drawing test. This helps us to monitor the progress of each pupil, allowing us to quickly identify and target the areas of strength or weakness of each pupil.

Pupils will receive written or verbal feedback on each piece of work they produce. All pupils must act upon any feedback or advice given to ensure they are working to their full potential.

How can I help my daughter? Regular visits to Art Galleries and Exhibitions are always encouraged. Throughout Wirral and Liverpool there are a number of excellent Galleries that are free to enter.

The Williamson Art Gallery - Birkenhead Lady Lever Art Gallery - Port Sunlight Tate Gallery - Albert Dock, Liverpool The Walker Art Gallery – Liverpool.... to name but a few

# **Enrichment opportunities**

There are a number of creative magazines available to read in the library as such as 'Molly Makes' and 'Creative Review'.

There is also a large selection of Art & Design and Fashion books in the school library. These range from Renaissance and Impressionism to more contemporary artists. This is an invaluable learning resource for all of our pupils.

# Design and Technology

As citizens of the twenty-first century, pupils face an uncertain future. Energy and material shortages, the effects of climate change, increased reliance on technology, the Internet of Things and a manufacturing revolution are just some of the issues today's society faces. Design and Technology aims to equip pupils with the knowledge and skills required to succeed in the technological age. They will develop a wide range of problem-solving, mathematical and technical skills underpinned by a deep understanding of materials, components and systems, along with how and why products are manufactured in particular ways. The work of past and present designers influence pupils as they learn from their successes and failures. There is an acute focus on environmental impacts and meeting the needs and wants of a wide variety of consumers, including inclusive design for the less able or those with different cultures or faiths. In addition to the demands of this rigorous curriculum, there is also emphasis placed on building resilience, collaboration and companionship.

The Design and Technology curriculum at Key Stage 3 aims to introduce pupils to solving problems through practical skills. By developing a foundation knowledge of materials, components, systems and processes, pupils can create functioning prototypes to solve problems in various situations. As pupils progress through Key Stage 3, the problems they solve become more complex and demand an increased knowledge of materials, components, systems, processes and their impacts on the environment.

Year 7s produce a USB-powered adjustable lamp that involves the development of numerous practical skills. They also learn about materials and why they are used for different applications. This unit allows pupils to work with resistant materials, including timbers and polymers. As an electrical item, pupils learn about how electricity is generated and how this puts their energy use into perspective before soldering the circuit together. They go on to make a note holder focusing on mechanical principles in its manufacture, as well as working in a team to produce a model bridge whilst investigating structures. In Year 7 Cooking and Nutrition, pupils will learn where food comes from, how to cook a range of dishes safely and hygienically and apply their knowledge of healthy eating.

	Content to be studied	Method of assessment
Design and Technology	<ul> <li>Applying surface finishes.</li> <li>Assembling using standard components.</li> <li>Communicating design through isometric sketching</li> <li>Cultural considerations</li> <li>Cutting timbers.</li> <li>Deforestation</li> <li>Design for the developing world</li> <li>Design professionals' study</li> <li>Electronics- the theory of electricity and how products work.</li> <li>End of topic test</li> <li>Ergonomics</li> <li>Evaluating their own work.</li> <li>How electricity is generated and the importance of a green future.</li> </ul>	Self, peer and teacher marking throughout the series of lessons. There is an end-of- unit assessment during the final lesson of the series.

	<ul> <li>Levers</li> <li>Marking and measuring using tools and equipment</li> <li>Mechanical Systems</li> <li>New and emerging technologies</li> <li>Product analysis</li> <li>Soldering</li> <li>Structures</li> <li>Systems and programming</li> <li>Traditional wood joints.</li> <li>Types of wood, their properties and applications</li> </ul>	
Cooking and Nutrition	<ul> <li>Cooking</li> <li>Welcome to Food</li> <li>Healthy Eating</li> <li>Carbohydrates</li> <li>Protein</li> <li>Dairy and Alternatives</li> <li>Modifying Ingredients</li> <li>Food Choices and Suitability</li> </ul>	Self, peer and teacher marking throughout the series of lessons. There is an end-of- unit assessment during the final lesson of the series

As with all Key Stage 3 subjects; developing, secure and excellent grades are given for assessments. In addition to the end-of-topic test, your daughter will be assessed on her technical knowledge, as well as her ongoing practical work. Feedback can be found in the booklet that is usually kept in school, and in the homework booklet that goes home.

Your daughter will receive regular feedback on her work and she will have the opportunity to reflect on this and ensure she makes further progress. If she is struggling with any of the concepts, then she will receive additional support in lessons and may be invited to some additional sessions at lunch time.

You can help your daughter by encouraging the use of the VLE. The Product Design VLE is full of useful resources, including, documents, videos and animations. Your daughter is encouraged to use the search function at the top right of the page to search any topics she is unsure of, or as part of her homework tasks.

There are a number of other websites that are useful, that will support your daughter:

- BBC Bitesize <a href="https://www.bbc.com/bitesize/subjects/zfr9wmn">https://www.bbc.com/bitesize/subjects/zfr9wmn</a>
- Technology Student <a href="http://www.technologystudent.com/">http://www.technologystudent.com/</a>
- National Geographic <a href="http://www.nationalgeographic.com/">http://www.nationalgeographic.com/</a>

Please encourage your daughter to complete 'excellence' tasks, which feature in lessons and in homework. These tasks are designed to extend her thinking and stretch and challenge her.

STEM Club is an excellent opportunity for your daughter to work with other pupils on activities and competitions relating to Science, Technology, Engineering and Maths. Design and Technology as a subject encompasses all four of these, therefore if your daughter enjoys the subject, she should get involved in any STEM activity she can, both inside and outside of school.

Watching 'How It's Made' on TV or YouTube is a great way of seeing manufacture in action, it gives a much greater understanding of the scale involved in making a range of different products as well as exploring individual processes.

The Smallpeice Trust is a charitable organisation that aims to increase the number of young people entering engineering-based careers. They offer a range of residential visits from Year 8 endorsed by the school which may be of interest. <u>http://www.smallpeicetrust.org.uk</u>

Looking ahead, your daughter could apply for an Arkwright Scholarship in Year 11, a prestigious award that is recognised by many universities and top employers in the field of engineering. Upton supports Year 11 pupils will all aspects of the application and interview process. <u>http://www.arkwright.org.uk</u>

# Drama

In Year 7, students will study Drama one lesson a fortnight. By the end of the year 7, student will:

- Know and understand the essential group skills for required for drama.
- Develop their confidence, and ability to communicate and co-operate effectively with others when working as part of a team.
- Study a variety of stimuli as a starting point for creating drama including scripts, poems, music, artefacts and current affairs.
- Students will gain an understanding of theatre history and the world around them through using drama as tool to explore historical events, fictional scenarios and appropriate plays.

	Contout to be studied	Mathed of
	Content to be studied	Method of assessment
Autumn 1	<ul> <li>Basic Drama skills</li> <li>Exploration of the 3 C's:</li> <li>Communication</li> <li>Co-operation</li> <li>Concentration</li> <li>Pupils participate in group-work and trust activities to build confidence creativity and physical control skills.</li> <li>The also develop positive working relationships in Drama.</li> </ul>	<ul> <li>Pupils complete a practical and written baseline assessment task in order to understand their skills level and prior experience.</li> <li>Pupils participate in formative assessment tasks to monitor their initial skills progression in Drama</li> <li>Pupils will be awarded an effort level (1-4) only, in the first half term.</li> </ul>
Autumn 2	<ul> <li>Explorative Strategies</li> <li>Pupils will be introduced to explorative strategies including: <ul> <li>still image</li> <li>thought-tracking</li> <li>role play</li> <li>hot-seating</li> <li>narration</li> </ul> </li> <li>Pupils will use the explorative strategies in order to explore and develop their characterization techniques in response to a variety of themes, topics and stimuli such as Bullying and Evacuation.</li> </ul>	<ul> <li>Pupils participate in formative practical and written assessment tasks.</li> <li>They receive peer and teacher feedback. They reflect of their progression and set targets for improvement.</li> <li>Pupils complete a summative practical and written self and peer-assessment.</li> <li>Pupils set their personal targets for improvement</li> <li>Pupils receive an effort and attainment grade from their teacher, either <i>Developing, Secure or Excellent</i> based on their overall skills progression</li> </ul>
Spring 1	Interpreting Characters Pupils explore how to interpret text, dialogue and stage directions through reading, rehearsing & staging a number of Roald Dahl scripts including 'The Twits' and 'Charlie and the Chocolate Factory'.	Pupils are assessed on their practical application of skills and their ability to interpret characters, roles and text for performance. Pupils participate in a formative assessment task. Pupils receive peer and teacher feedback based on their skills progression this half term.

Spring 2	Polished Performance Pupils work creatively with peers to interpret and rehearse chosen scenes from texts studied (in	Pupils regularly evaluate their skills development and progress through both written and practical tasks.
	<ul> <li>spring 1).</li> <li>Pupils work co-operatively with their peers to present a polished performance with a focus on sustaining their roles in performance using a range of Drama performance skills.</li> <li>Pupils build their theatre vocabulary through written and evaluative tasks in their assessment booklets.</li> </ul>	Pupils complete a summative assessment. They complete self and peer assessment. They set targets for improvement Pupils receive an effort level and attainment grade from their teacher which is noted in whole school tracking data as either <i>Developing, Secure or</i> <i>Excellent</i> based on their overall skills progression.
Summer 1 & 2	<ul> <li>Theatre History</li> <li>Pupils explore the origins of Drama through the exploration of varying theatre forms including: <ul> <li>Greek Theatre</li> <li>Medieval Theatre</li> <li>Shakespeare's Theatre</li> <li>Vaudeville</li> <li>Musical Theatre</li> </ul> </li> <li>Pupils explore, adapt and present Greek myths and legends, Biblical stories linked with FCJ values and interpret characters from popular Shakespeare Plays.</li> <li>Pupils explore the disciplines associated with vaudeville and musical theatre through applying a variety of performance skills including song and dance.</li> </ul>	<ul> <li>Pupils evaluate their knowledge and skills development through both written (research/homework) and practical tasks.</li> <li>Pupils complete both formative and summative assessment tasks based on one of the genres explored.</li> <li>Pupils participate in self and peer assessment. They set targets for improvement and skills progression.</li> <li>Pupils receive an effort level and attainment grade from their teacher which is noted in whole school tracking data as either <i>Developing, Secure or Excellent</i> based on their overall skills progression.</li> <li>Year 7 pupils receive a written progress report from their teacher in the summer term.</li> </ul>

- Pupil effort (1-4) and attainment marks (Developing, Secure and Excellent) are recorded four times a year in whole school tracking and reporting documents.
- Verbal and written feedback will be offered to students during formative and summative assessment tasks.
- Written tasks, research, homework, self and peer feedback is evident in pupil assessment booklets.
- Pupils and parents will attend one parent- teacher evening a year to discuss pupil progress and targets.
- Pupils will receive an end of year Drama report.

How will work be assessed?

- In Year 7 pupils study Drama for one lesson every two weeks.
- Pupils participate in regular **formative assessments** and termly **summative assessments**.
- The curriculum content, delivery and assessment format is based on National Drama Level Descriptors.
- Pupils are assessed on their application of practical skills, knowledge and confidence in group work.
- Pupils reflect on their own and others progress through self, peer and teacher assessment tasks.
- Summative assessments take place at the end of each unit of work.

What feedback might they get? / What support might they get if they are not mastering the curriculum?

- Pupils receive personalised feedback in order to know and understand how to improve practical and performance skills, including voice and movement.
- Pupils are offered personalized targets in order to develop their knowledge of theory, and practice and they are encouraged to use Drama and Theatre vocabulary during verbal and written responses.
- Pupils are supported during group work so that they are able to develop their skills and confidence.
- Pupils will be able to evaluate their effort and progress in their assessment booklets in order to consolidate their learning whilst targeting areas for improvement.

#### **Enrichment opportunities**

- Year 7 Drama club takes place once a week
- Year 7 pupils can participate in House plays and pantomimes
- Opportunities to participate in local and national Drama festivals
- Opportunity to audition and participate in the whole school production at the end of Year 7.
- The Drama Department arranges regular theatre visits to local theatres watch a range of plays and Musical Theatre productions.

# Modern Foreign Languages – Spanish

Learning a foreign language provides an opening to other cultures. At Upton we believe that a highquality languages education should foster pupils' curiosity and deepen their understanding of the world. Pupils should have the opportunity to express their ideas and thoughts in Spanish and to understand and respond to its speakers, both in speech and in writing. Our aim is encourage students to communicate for practical purposes, learn new ways of thinking and read great literature in the original language. We would like to provide our students with the foundation for learning further languages, equipping them to study and work in other countries. We would like our students to become confident speakers of Spanish, to have fun, to work cooperatively with other members of the class and to develop a fascination to learn about other languages and cultures.

### ¡A disfrutar aprendiendo!

	Content to be studied	Method of assessment
Autumn	Empezamos el español 1:	Weekly vocabulary tests
1	Phonics, alphabet, personal details, pencil case, countries	Weekly translation tests
	and nationalities.	End of unit assessment in
	Grammar: Question words, Present Tense of Ser/Tener,	Listening and Reading
	Word Order, Gender of Words	
Autumn	Empezamos el español 2:	Weekly vocabulary tests
2	Describing the place where you live, describing your home	Weekly translation tests
	and giving opinions	End of unit assessment in
	Grammar: Present Tense of Vivir, Plural and Singular Opinions	Writing and Translation
Spring 1	Familia y Tiempo libre 1:	Weekly vocabulary tests
	Talking about family and pets, physical description.	Weekly translation tests
	Grammar: Gender and Number of Adjectives, Adjectival	End of unit assessment in
	Agreement. Revision or Ser/Estar	Listening and Reading
Spring 2	Familia y Tiempo libre 2:	Weekly vocabulary tests
	Talking about free time activities	Weekly translation tests
	Grammar: Infinitive verbs, Opinions using verbs	End of unit assessment in
		Writing and Translation
Summer	El Futuro y la Cultura 1:	Weekly vocabulary tests
1	Daily Routine, Helping at home and talking about the future	Weekly translation tests
-	Grammar: Immediate Future (IR + Infinitive), Radical	End of unit assessment in
	Changing verbs.	Listening and Reading
Summer	El Futuro y la Cultura 2:	Speaking Assessment and/Oral
2	Spain/Spanish-Speaking Countries Research Project	Presentation

How will I know if my daughter is achieving this? Making Progress

During the course of the academic year, you will be informed about your daughter's progress. An attainment of Excellent, Secure and outstanding will be given to each of the girls. Please find below the description for each of them:

**Excellent – Excelente** - In the skills of listening, reading, writing, speaking and / or translation I have produced very accurate and outstanding work and answers.

**Secure – Firme -** In the skills of listening, reading, writing, speaking and / or translation I have produced accurate work and answers which show a sound understanding of the topics and grammar taught.

**Developing – En desarrollo** - In the skills of listening, reading, writing, speaking and / or translation I show some understanding of the topics and grammar taught. To progress further I need to work on my targets and regularly review my work.

Practising the Language

There is a number of ways students can practise their language skills interactively. Have a look at the following websites:

https://www.educationquizzes.com/spanish

http://www.spanishrevision.co.uk/ks3/index.htm

https://www.bbc.com/bitesize/subjects/zfckjxs

www.linguascope.com

**Enrichment opportunities** 

Y7 Trip to Spain

Spanish Language Club

Annual European Week of Languages

Mandarin Chinese, as a unique opportunity which is offered to all Year 7 pupils at Upton Hall School. The aim of the course is to introduce the language, culture and traditions of China to our Year 7 pupils. It will also help pupils to appreciate our own language and culture.

Learning Chinese language is also vital in improving understanding between people here and in the wider world which in supporting global citizenship by breaking down barriers of ignorance and suspicion between nations. It will make our pupils more attractive to their future employers in the 21<sup>st</sup> century. Y7 Mandarin Chinese course is designed to help pupils understand how the Chinese language operates and build up their linguistic competence. In Year 7, pupils will acquire basic Chinese language skills in speaking, listening, reading and writing, as well as basic key grammar and Chinese literature.

Pupils will have one lesson per week, including cultural activities. At the end of Year 7, pupils will obtain Mandarin Chinese Grade 1. Pupils can continue to develop their Chinese language skills in Year 8 and further up to GCSE and A level.

	Content to be studied	Method of assessment
Autumn 1	<ul> <li>General information about China</li> <li>Introduction to the Chinese language:         <ul> <li>Chinese phonetic system – Pinyin</li> </ul> </li> <li>Chinese written system – 汉字 (characters)</li> </ul>	Research and presentation about China and Chinese language Test: Listening, Reading and responding
Autumn 2 Spring 1	<ul> <li>Written Chinese - 汉字 (characters)</li> <li>Numbers: 1 – 10</li> <li>Lesson 1 Greetings (1) Useful classroom phrases Chinese culture</li> <li>Numbers: 11 – 100</li> <li>Lesson 2 Greetings (2)</li> <li>Lesson 3 Greetings (3)</li> <li>Lesson 4 Talking about names</li> <li>Lesson 5 Talking about ages</li> <li>Lesson 6 China &amp; cities</li> <li>Chinese culture</li> <li>Key grammar</li> <li>Celebration of the Chinese New Year - various Chinese culture activities</li> </ul>	Research and presentationWeekly dictation exerciseTest: Four skillsProgress evaluationIndividual target settingInterviewing pupilsWeekly dictation exerciseTest: Four skillsEvaluation of progressIndividual target settingInterviewing pupilsResearch and presentationabout Chinese festivals
Spring 2	<ul> <li>Lesson 7 Famous cities in China</li> <li>Lesson 8 Talking about family members</li> <li>Chinese culture</li> <li>Key grammar</li> </ul>	Weekly dictation exercise Test: Four skills Evaluation of progress Individual target setting Interviewing pupils Research and presentatio

Summer 1	<ul> <li>Lesson 9 My family and I (1)</li> <li>Lesson 10 My family and I (2)</li> <li>Lesson 11 My family and I (3)</li> <li>Lesson 12 Talking about pets</li> <li>Chinese writing format</li> <li>Key grammar</li> <li>Revision for the school exams</li> </ul>	Weekly dictation exercise Test: Four skills Evaluation of progress Interviewing pupils School exam: Four skills
Summer 2	<ul> <li>Speaking activities</li> <li>Chinese culture</li> <li>Chinese literature</li> <li>Chinese history</li> </ul>	Evaluation of progress Interviewing pupils Research and presentation

Vocabulary is crucial in learning Chinese in Year 7. It is the foundation for achieving a good progress in Chinese language. Vocabulary will be assessed on a weekly basis. Progress on the four language skills will also be assessed at the end of each topic/unit. Pupils will receive either verbal or written feedback from teachers and peers, as well as analysis of their own learning progress and setting up individual learning target at the end of each term.

Regular homework is required of all Year 7 pupils. Completion and timely submission of homework are expected. Homework could be in any skill areas: speaking, listening, reading, writing or translation. It will also include some research about China and Chinese culture to stimulate pupils' interest.

Lunchtime tutorial sessions will be allocated to Year 7 pupils to help them to meet their potential and improve their performance when possible.

How can I help my daughter?

Pupils can use the websites below for their learning:

Pinyin (Chinese phonetic/sound system): <u>https://www.youtube.com/watch?v=b9Ayvjy-Dgs</u>

Writing Chinese character: <u>www.mdbg.net</u> <u>http://www.bbc.co.uk/languages/chinese/games/characters.shtml</u>

Learning/memorizing vocabulary: <a href="https://youtu.be/7iTAG5nehbc">https://youtu.be/7iTAG5nehbc</a>

#### **Enrichment opportunities**

- Chinese drama group
- Pupils will be encouraged to participate in regional and national Chinese speaking competitions organised by the British Council/HSBC.
- Pupils will have opportunities to visit Chinese departments in prestigious UK universities.
- Various Chinese culture activities.

# Geography

The Geography curriculum at Key Stage 3 is all about the bigger picture. Pupils cover a range of stimulating topics from plate tectonics to global development. The Geography curriculum progresses from the local scale though to the national and international. There is a blend of skills, issues and themes. There is progression in the complexity and nature of themes covered, including contemporary must know topics like climate change. Geography aims to challenge pupil's sense of global stewardship. There is also progression in skills, from basic map skills to fieldwork.

	Content to be studied	Method of assessment
Autumn 1	My Personal Geography Geography in the News. What are the different types of Geography? Pupils will complete their own local area study with a pilot study taking place in the school grounds.	My local area – an environmental investigation project
2	Dangerous GeographyThe origins of the WirralEvidence of geological change in the WirralThe Wirral: human landscapeAn introduction to plate tectonics. A focus on volcanoes and theirvolcanic activity and volcano case studies. How people respond tothe volcano hazard.	Summative assessment
Spring	Global Superpower The Geography of China	Decision making exercise
Summer	<ul> <li>Geography Futures</li> <li>Climate Change – causes, consequences, solutions.</li> <li>Impact of climate change (tropical storms, wildfires)</li> <li>CAUSES-focus on greenhouse gases and China and Middle East-fight for fossil fuels</li> <li>Fieldwork and Liverpool Regeneration: Albert Dock fieldwork Investigation. Primary data collection and learning to structure and investigation – Intro, aims and methods, data presentation, analysis, conclusion and evaluation.</li> </ul>	Summer Exam

We provide various methods of assessment which will hopefully enable pupils to achieve, depending on the approach to learning. Therefore, pupils will have the opportunity to produce enquiry-based projects and the occasional presentation. In preparation for future years, there will still be a bias toward the more traditional exam-based style of assessment.

Teacher and pupil self-assessment is continuous. Their geography passport provides an opportunity for pupils to record their progress during the year.

The geography teachers at Upton are always available to meet with individual pupils to discuss their progress and provide guidance. Therefore, we will respond to individual needs if and when they arise. Different topics can provide different challenges.

#### How can I help my daughter?

The local area environmental enquiry in the first term may need some parental supervision. Ideally your daughter will visit her local area and take photographs or carry out a simple survey of the environment.

Geography is a topical and contemporary subject. We encourage pupils to keep a look out for news events either from the local area or faraway places.

### **Enrichment opportunities**

Upton Hall's eco environment group is run by the geography department. This extra-curricular group provides opportunities for pupils to get involved with local eco based projects. We are also very lucky to have amazing school grounds with our own solar dome, allotment and orchard.

We enter a team of pupils for the annual Worldwise Geography Quiz hosted by Chester University. There is also the geography graduates programme, encouraging pupils to investigate any issues or topic of their own choice.

# History

History at Upton aims to help our pupils to become curious, creative, communicative, compassionate and committed young people. It does this through creating layers of understanding of concepts such as power, monarchy, revolution, radicalism, inequality and diversity. The beginning of the course allows for a clear chronological connection between pre- and post-1066 history. It is a good vehicle for the introduction of ideas about chronology; continuity and change; cause and consequence; and reliability and utility of sources. Following this, we take a broadly chronological approach to English Medieval history, using enquiry questions to stimulate higher-order thinking about events which shaped English culture, power structures and society. However, we want pupils to realise that England was part of a diverse, complex medieval world and therefore invite them to reflect on what was happening elsewhere, through tasks called 'Meanwhile, elsewhere...' Pupils conduct an investigation into religious radicalism (both of early monasticism and of the Reformation) which provides a link between the medieval and early-modern worlds. Finally, pupils will connect these ideas with their local environment through a study of the history of Upton itself and how our village and our school site evolved.

	Content to be studied	Method of assessment
Autumn 1 Autumn 2	Short introduction to key skills and vocabulary, including the reading and comprehension of 'real' historical scholarship. What does it mean to be English? (Cheddar Man and the Ivory Bangle Lady, Anglo-Saxons and Vikings) What did it mean to be king? (Edward the Confessor) Why was England a battlefield in 1066? Why did William win the Battle of Hastings? How did William take control? How important were England's medieval queens? Did Magna Carta change who had the power in England?	Regular, low-stakes short- answer knowledge / skills tests Extended reading of historians' work, with comprehension tasks. Structured extended writing, assessing the answers to enquiry questions.
Spring 1	<ul> <li>Why couldn't people ignore the Church?</li> <li>Why was the Church important? (including Henry II and Thomas Becket)</li> <li>The beginnings of western monasticism and how things changed.</li> <li>Why did people get angry with the Church? Martin Luther and the German Reformation. Henry VIII, his problems and the dissolution of the monasteries.</li> <li>Also Meanwhile, Elsewhere homework task – the Albigensian Crusade</li> </ul>	Regular, low-stakes short- answer knowledge / skills tests Extended reading of historians' work, with comprehension tasks. Structured extended writing, assessing the answers to enquiry questions.
Spring 2	Was life always hard for ordinary people in Medieval and Early Modern England? How did events such as the Black Death affect the ordinary people of England? impact of the Tudor Poor Laws.	Regular, low-stakes short- answer knowledge / skills tests

Summer 1	Who lived in Early Modern England? [Black Tudors]	Extended reading of
	Meanwhile, elsewhere homework tasks The Empire	historians' work, with
	of Mali and Mansa Musa	comprehension tasks.
		Structured extended writing,
		assessing the answers to
		enquiry questions.
		Summer exam: mixture of
		knowledge test,
		comprehension of secondary
		historian(s) and source
		analysis
Summer 2	What is the history of <i>our</i> environment?	Choice of creative expression
	Investigation of the History of Upton Hall, its pupils and	of understanding and / or
	its grounds, using photographs, plans and exploration	primary historical research
	of the grounds.	

There will be regular short-answer tests, testing both substantive knowledge and knowledge of the tools needed to be a historian. Teachers will set a variety of homework tasks, including creative tasks, research, revision and reading. Reading of extensive passages of historians' writing will be undertaken in class and comprehension questions given.

Feedback will be given regularly through marking of exercise books, guided self-assessment, peer assessment and verbal feedback. Pupils will be guided to reflect on their work, make corrections and set targets to assist their progress.

### How can I support my daughter?

A variety of resources are available at <a href="https://www.bbc.com/bitesize/guides/zm4mn39/revision/">https://www.bbc.com/bitesize/guides/zm4mn39/revision/</a>

Visiting medieval sites is enormously helpful: Conwy Castle, Chester Cathedral, Birkenhead Priory, Norton Priory, Fountains Abbey and Battle Abbey (in Sussex) are particularly useful sites.

#### **Enrichment opportunities**

BBC History Magazine is available in the school library and a wide range of reading material is recommended by our librarian. Details are shared with the girls through Google Classroom.

Extension activities and the possibilities of individual research are supported and encouraged, particularly during the 'History of Upton' at the end of the school year.

# Computing

A high-quality computing education equips pupils to use computational thinking and creativity to understand and change the world. Computing comprises the three disciplines of computer science, digital literacy and information technology (IT). Computer science is the study of how computers work, the mathematical basis of their operation and how they can be programmed; Information technology is the study of the design and use of computer systems by individuals and businesses; Digital literacy is the ability to use computer systems effectively and to understand the social and ethical issues such systems raise. By the end of Year 9 we aim for students to:

Have a secure grounding to the fundamentals of computer systems including the hardware, software and how they are integrated;

Be independent and creative users of IT, equipped with skills that will support their learning in all subjects;

Begin to understand the complex social, moral, cultural and legal implications of the impact of computer technology on society, including their own online safety and privacy.

Students have the option from Year 10 to study GCSE and A-level qualifications in computer science which focus on computer science, or choosing BTEC IT in sixth form which will further develop their digital literacy skills.

	Content to be studied	Method of assessment
Autumn 1	<ul> <li>Impact of Technology: collaborating online respectfully</li> <li>Identifying how to use online collaboration tools respectfully. An introduction to the computer room.</li> </ul>	Self and teacher marking throughout the series of lessons. Short online end of lesson assessments as well as a final summative topic test.
Autumn 2	<ul> <li>Programming in Scratch Part I</li> <li>Applying the programming constructs of sequence, selection and iteration in Scratch</li> </ul>	Self and teacher marking throughout the series of lessons. Short online end of lesson assessments as well as a final summative topic test.
Spring 1	<ul> <li>Computer Hardware</li> <li>The basics of how a computer actually works and what's inside the hood.</li> </ul>	Self and teacher marking throughout the series of lessons. Short online end of lesson assessments as well as a final summative topic test.
Spring 2	<ul> <li>Programming in Scratch Part II</li> <li>Advanced programming skills including using sub-routines to decompose a problem that incorporates lists.</li> </ul>	Self and teacher marking throughout the series of lessons. Short online end of lesson assessments as well as a final summative topic test.

Summer 1	Communication: computer systems and networks	Self and teacher marking
	<ul> <li>Exploring how the internet is used as a</li> </ul>	throughout the series of
	communication tool and identifying how	lessons.
	searches are made and what influences them.	Short online end of lesson
		assessments as well as a final
		summative topic test.
Summer 2	Edublocks	Self and teacher marking
	Visual block-based programming to introduce	throughout the series of
	Python language through drag and drop	lessons.
		Short online end of lesson
		assessments as well as a final
		summative topic test.

As with all Key Stage 3 subjects; developing, secure and excellent grades are given periodically. In addition to end-of-topic tests, your daughter will be assessed through the use of Google form assessments after each lesson in order to view her understanding. Feedback can be found via her Google Classroom.

Your daughter will receive regular feedback on her work and she will have the opportunity to reflect on this and ensure she makes further progress. If she is struggling with any of the concepts, then she will receive additional support in lessons and may be invited to some additional sessions at lunch time.

### How can I support my daughter?

You can help your daughter by encouraging the use of the resources on her Google Classroom.

BBC Bitesize <u>https://www.bbc.com/bitesize/subjects/zvc9q6f</u> is an excellent resource that your daughter can use to support her learning.

Please encourage your daughter to complete 'explorer' tasks, which feature in lessons and in homework. These tasks are designed to extend her thinking and stretch and challenge her.

### **Enrichment opportunities**

STEM Club is an excellent opportunity for your daughter to work with other pupils on activities and competitions relating to Science, Technology, Engineering and Maths. If your daughter enjoys the subject, she should get involved in any STEM activity she can, both inside and outside of school.

# Music

Music is a universal language that embodies one of the highest forms of creativity. In Year 7, your daughter's music education will engage and inspire her to develop a love of music and her talent as a musician, and so increase her self-confidence, creativity and sense of achievement. As she progresses, she will develop a critical engagement with music, allowing her to compose, and to listen with discrimination to the music of the great composers through history, and a range of music from different places, styles and cultures.

	Content to be studied	Method of assessment	
Autumn 1	<ul> <li>Rhythm &amp; Pulse</li> <li>Exploring Rhythm and Note Values <ul> <li>Rhythm, Pulse, Beat, Tempo</li> <li>Note Values – crotchet, minim, quaver, pair of quavers, semibreve</li> <li>Rhythm Grid Notation</li> </ul> </li> </ul>		
Autumn 2	<ul> <li>Building Bricks</li> <li>Exploring The Elements of Music         <ul> <li>Pitch, Tempo, Dynamics, Duration, Texture, Silence, Articulation, Timbre, Sonority</li> </ul> </li> </ul>		
Spring 1	<ul> <li>Keyboard Skills</li> <li>Exploring the keyboard and basic fingering <ul> <li>Basic keyboard functions (voices and 'styles')</li> <li>Finger positioning at the keyboard</li> <li>Notes of the treble clef and their positions at the keyboard</li> <li>Scales, Chords</li> </ul> </li> </ul>	Self-assessment, peer assessment and teacher-led formative assessment through verbal feedback. Summative assessment in the form of a final performance and/or a listening examination at the end of each unit.	
Spring 2	Orchestral Instruments Exploring orchestral instruments, how they are played, the families/sections of the orchestra, and characteristic timbres/sonorities • Strings, Woodwind, Brass, Percussion		
Summer 1	Ukulele Introduction to the ukulele Chords, Strumming, Harmonic rhythm Singing and playing simultaneously Vocal melody and harmony		
Summer 2	<ul> <li>Folk Music</li> <li>Exploring Musical Arrangements <ul> <li>Sea Shanties, British and World Folk Music</li> <li>Melody, Chords, Bass Line, Descant</li> <li>Group Performances</li> </ul> </li> </ul>		

Formative assessment (i.e. assessment *for* learning) is to help pupils themselves understand what they need to do next in order to improve. It entails a dialogue with pupils, giving feedback which is personalised, so that pupils know what steps they need to take next and what a quality outcome will look like in the topic they are working on.

Summative assessment (i.e. assessment *of* learning) focuses on the product or the outcome of learning. Pupils will be awarded a grade of Developing, Secure or Excellent for each summative assessment.

### How can I support my daughter?

Encourage your daughter to attend extra-curricular activities, for reasons of personal fulfilment, companionship with like-minded pupils, and the challenge of extending her performing skills and experience. Involvement in extra-curricular music can generate a greater sense of self-worth and motivation, and could lay the foundation for the enjoyment of music in later life. In addition, encourage your daughter to listen to as much music as possible, preferably music and genres that she doesn't normally listen to, in order to broaden her musical experience.

#### **Enrichment opportunities**

Any pupils wishing to take up peripatetic musical instrumental lessons within school, please visit <u>https://www.musicforlife.org.uk</u> to book lessons

Beatz Percussion Club Wednesdays 12.45 – 1.10 – Open to all pupils in year 7

Junior Choir Thursdays 1245 – 1.10 – Open to all pupils in year 7

Junior Band Fridays 12.45 – 1.10 – Open to any pupils who play an instrument Grade 0-3

Senior Orchestra Thursdays 4-5pm – Open to all pupils who play an instrument Grade 3+

# **Physical Education**

The Physical Education curriculum is broad and balanced allowing students to develop the knowledge and skills to be physically active and promote a healthy balanced active lifestyle now and in later life. Our curriculum will promote a love and passion for physical activity and the confidence to participate in a variety of sports. In addition, students will learn to evaluate their own health and fitness levels using data effectively.

By working in a variety of contexts of their own, in groups and teams, pupils learn to work both independently and collaboratively. By participating as performers, leaders and official's pupils develop the ability to communicate effectively in a range of ways both verbally and non-verbally.

PE encourages learners to be enterprising and work cooperatively and effectively with others. Taking on the roles of the leader or official develops a sense of respect for others and the ability to apply rules fairly.

Sportsmanship should be visible in all lessons with students abiding by rules being humble in victory and gracious in defeat. Competition is an integral part of sport and embedded throughout.

Each topic taught a set task will be set. A level descriptor of Excellent, Secure and Developing will be recorded in school planner.

### How will I know if my daughter is achieving this?

Competence in Physical activity and the sense of enjoyment brought about by being active and successful engenders a sense of confidence and self – esteem in pupils and enables them to become increasingly independent. This confidence encourages them to get involved in physical activity for its own sake and as part of a healthy active lifestyles.

In Autumn term pupils will be base lined and encouraged to join certain clubs based on their ability. Moderated equipment/tasks will enable all pupils to achieve success. Opportunities for assessing progress are built into each lesson/unit. Personal and peer observations/evaluations are constantly used, including self-assessment sheet completed in their planner every half term. A teacher assessment with level descriptors and comments/targets are reported to parents through the school tracking system.

### How can I support my daughter?

We look for your support in the recognition that purposeful engagement in activity out of lessons enhances pupil's skill levels, confidence self-esteem and feelings of competence. We encourage girls to watch sport and read news articles with regards to sport. This enhances their knowledge of competitive play and rules.

You can help your daughter by encouraging them to use the VLE.

#### **Enrichment opportunities**

Students will be given the opportunity to experience competitive sport by representing their house in regular house events once a half term. All students have the opportunity to engage in our extensive extra-curricular programme that is delivered by us PE staff and specialist sports coaches. Clubs happen at lunchtime and after school. Pupils have the chance to play against other schools locally and regionally. In addition to this, students have the opportunity to attend trials for county and national representation in various sports.

## Here I Am!

"Here I Am" is a rotation subject devoted to enhancing your daughter's speaking and listening skills. The inspiration for the name of the subject comes from the Hebrew word *hineni, which* is often used by people when they respond to a direct call from God. The core aim of the course is to build the students' confidence in self-expression and to develop their ability to listen to each other with care and respect.

	Content to be studied	Method of assessment
Unit 1 – Introducing public speaking.	<ul> <li>Students will listen and analyse the content and delivery of two key 20<sup>th</sup> century speeches.</li> <li>They will also learn: <ol> <li>To enhance the delivery of what they say when talking in public.</li> <li>The need for a balance between memorization and improvisation in public talking.</li> <li>How to appear confident and how to control their nerves.</li> </ol></li></ul>	Social activism speech – Students will deliver a 1 minute talk promoting change on an issue of their choice. The issue can be political, social, economic or environmental.
Unit 2 – Introducing debating.	Students will learn how formal debates are structured and the principles of rhetorical oratory. They will then move on to learn about the fundamental principles and the institutions that underpin the six British Values of Democracy, the Rule of Law, Sovereignty of parliament and the crown, Tolerance and Respect, Equal Opportunities and Human Rights. In preparation for a debate on these values, students will read a range of non-fiction articles to inform their opinion on motion.	Students will take part in a debate, arguing for or against a motion related to British Values.
Unit 3 – Personal talks.	Students will learn about how to deliver a well-structured and inspirational talk by analysing a TED talk [TED is an organisation that is dedicated to spreading ideas, usually in the form of short, powerful talks.]	Students will deliver a two minute talk, either about themselves or someone that they respect or admire.

### How will my daughter be assessed?

Your daughter will record the work they complete in a work booklet, which will include drafting work for the public speaking tasks they will undertake. At the bottom of this drafted work, the subject teacher will record a comment on your daughter's performance during the task and she will be given an attainment grade of developing, secure or excellent, alongside an effort mark. The criteria for these attainment grades can be seen at the front of the booklet and it is here that your daughter will monitor her progress.

#### How can I help my daughter?

One of the most challenging principles of good public speaking is delivery. To hone this skill, it is essential that the school prepares your daughter to deliver each task without the aid of written notes. Please be prepared to help your daughter rehearse their material, either by listening and prompting them or by ensuring that they have the time and space to do so. Rehearsing in front of a mirror is often recommended! A useful video that your daughter will watch in class can be found through the following link: <u>https://www.youtube.com/watch?v=rvBw\_\_VNrsc</u>

As you will see from the curriculum statement, much of the content of the talks will be derived from your daughter's knowledge of current affairs. Please encourage your daughter to read print-based journalism, before they go online to gain information [when <u>https://www.bbc.co.uk/news</u> is perhaps the most reliable, non-partisan news source to be recommended]. Broadsheet newspapers are available in the library daily.

KS3 Debating

# Personal, Social, Health & Economic Education

At Upton Hall FCJ, all students follow a comprehensive programme of study for Personal, Social, Health and Economic education which has become compulsory in all secondary schools from 2020. The DfE states, **"All elements of PSHE are important and the government continues to recommend PSHE is taught in schools".** The intent of our Personal Development curriculum is to support our students to become informed confident, healthy, resilient, and empathetic citizens who are fully prepared for life beyond Upton. Our engaging curriculum offers our students a platform to explore, debate and discuss real life topics and develop relevant life skills. As a Catholic School, our PSHE and RSE curriculum is underpinned by our FCJ values of excellence, companionship, hope, dignity, justice and gentleness.

Our curriculum is implemented by form tutors at least fortnightly and sometimes weekly. Form tutors deliver high quality lessons that cover a wide range of topics. Our implementation goes above and beyond the Government guidance in our planning and delivery of several contemporary themes that are of great importance to society and the modern world we live in. Sometimes our blend of traditional Mass, assemblies and form-time activities are supported (where applicable) by our school Chaplain, our local Parish Priest, guest speakers and specialist external bodies to provide holistic and specialist delivery for our students. Overall, our implementation of PSHE and RSE promotes well-being, spiritual, moral, cultural, mental and physical development as well as preparing our students for the opportunities, responsibilities and experiences of later life.

Across all year groups, Relationships and Sexual Education (RSE) and Health education is covered in ageappropriate topics. We use high-quality materials from which are developed through 'Life To The Full' (TEN:TEN) which covers the statutory elements of RSE and Health Education through a Catholic lens.

	Content to be studied	Method of assessment
Autumn 1	Consent and Boundaries	
	Respectful relationships including family life	
	TENTEN: Family and friends	
	<ul> <li>What makes a good friend?</li> </ul>	
	Managing friendships	
	Being positive	
	Pressure and Influence	
Autumn 2	Multicultural Britain	Pupils self and peer
	What is your identity?	assess their learning
	Nature v. Nurture	throughout the PSHE
	The Equality Act 2010 and Protected Characteristics	programme.
	<ul> <li>Breaking down stereotypes in society and ableism</li> </ul>	
	Prejudice and Discrimination	Pupils receive regular
	Challenging Islamophobia	oral feedback in lessons from form teachers.
Spring 1	TENTEN: Healthy – Inside and Out	
	TENTEN: My life on screen	
	Online gaming	
	TENTEN: Living responsibly	
	Careers and your future	
	• Skills and choices – Visit from Year 12s	
	Financial education	

Spring 2	<ul> <li>Why is political important?</li> <li>How is our country run?</li> </ul>	
	<ul> <li>Political parties</li> <li>Elections and campaigning Political debates and parliament</li> </ul>	
Summer 1	<ul> <li>TENTEN: Changing bodies</li> <li>Puberty for girls</li> <li>Puberty for boys</li> <li>Personal hygiene</li> <li>Growing up (FGM) TENTEN: Lifecycles</li> </ul>	Pupils self and peer assess their learning throughout the PSHE programme. Pupils receive regular oral feedback in lessons
Summer 2	<ul> <li>Healthy lifestyles</li> <li>What is alcohol?</li> <li>Smoking/Vaping</li> <li>Energy drinks and caffeine</li> <li>Sleep and relaxation</li> </ul>	from form teachers.

How will I know if my daughter is achieving this?

Pupils reflect on their learning as they go through the PSHE programme. They keep a PSHE folder in their form room which contains the activities they have participated in. If your daughter is not grasping any of the concepts of the programme, then these will be revisited. You daughter's form teacher will also comment on her progress in PSHE in her school report.

### How can I support my daughter?

You can help your daughter by encouraging her to keep up with current affairs. Reading about political and cultural issues would be extremely helpful and support the nature of the conversations and debate that take place in PSHE lessons. The following website could prove to be useful for this <a href="https://theday.co.uk/">https://theday.co.uk/</a>.

### Homework and the pupil planner

Pupils at Upton are given a pupil planner at the beginning of each school year and are expected to use it as a part of developing appropriate organisational and study skills. Homework is set according to the homework timetable, a copy of which can be found on the school website. Parents are encouraged to use the SIMS Parent mobile app to help keep track of your daughter's homework.

The following points outline how teachers of pupils in Year 7 support the use of pupil planners in their classes as part of establishing good homework habits.

When homework is given, instructions are clear and pupils are given time in class to write these requirements in their planner. Homework is checked regularly. Pupils who do not complete homework will be asked for their planner, have their pupil planner checked and can expect to be asked to do missed work during lunch time at school. For pupils who have difficulty in establishing a regular homework routine, contact will be made with parents or guardians. This may be via a phone call, a message in the pupil planner or by a more formal letter. There are pupils who require extra support to ensure that homework is completed and at this point their use of the planner will come under scrutiny. Support to establish better study habits can take different forms but in general involves collaboration between the pupil, Form Tutor, Head of Year, teachers and parents. If you feel that your child needs extra support to use her planner, please get a message to your child's Form Tutor at school.

### How You Can Help at Home

It is very useful if pupils plan what time each evening they are going to sit down to do homework. These may be different times on different days depending on other commitments. Year 7 pupils are expected to set aside approximately 90 minutes per night for homework. It is easier for pupils to focus on their homework if the house is relatively quiet during this designated homework time. It also helps to have the TV off during this time.

If possible, encourage your daughter to complete homework on the night that it is set. This avoids having lots of homework piling up and too much to do on a particular evening.

Ask to see the pupil planner - pupils are aware that these are not personal diaries and that they will be asked to show them to teachers and to parents. We ask you to sign the planner once each week.

#### **Other Points**

- There is useful information in the pupil planner both at the front and back, including a message to parents.
- Pupils may also use this planner to record reminders about sports activities, music lessons, personal achievements, etc.
- Establishing a regular homework routine in Year 7 is a major contributing factor to successful study techniques further up the school.
- The use of a planner and associated planning skills will be advantageous to our pupils in the busy adult world that follows Upton and University.

## **Extra-Curricular Activities**

One of the great strengths at Upton is the range and quality of the extra-curricular activities that are on offer. The staff at the school are generous with their time and totally committed to developing the all-round education of every pupil.

At lunchtimes and after school, clubs, societies, groups and teams meet to work together. These activities are valued by staff as a chance to work with the pupils outside the constraints of the curriculum.

Many of these activities revolve around music and sport. However, for those who are not musical or athletic there is still much on offer. We strongly encourage all pupils to participate in at least two of the activities each week. There are many pupils who find themselves doing something every day.

Active and committed involvement in extra-curricular work has so many benefits. The few pupils who do not get involved are missing a valuable opportunity.

What follows is a list of the activities currently on offer to our pupils in Year 7. The list changes from time to time as new activities are added to the programme. Pupils are kept informed of these developments as and when they happen. The SIMS Parent App will also contain information about activities.

Transport difficulties can be a barrier to participation in the after school activities, particularly if pupils live some distance from the school. Usually a solution can be found especially if parents are able to co-operate with each other over lifts.

We place a high value on these activities at Upton. They provide your daughter with a fantastic opportunity to work with a different group of people and to develop new sets of skills. Pupils must show commitment to at least two of these activities each week and note them down in your planner.

## Key Dates 2023 - 2024

Autumn Term 2023 Friday 1 September	School Development Day
Monday 4 September	School Development Day
Tuesday 5 September	Year 7, 12 and 13 return
Wednesday 6 September	All pupils return
Mon 23 - Fri 27 October	Autumn Half-term
Wednesday 20 December	Term ends 1.15pm

Spring Term 2024	Dupile roturn
Monday 8 January	Pupils return
Mon 19 - Fri 23 February	Spring Half-term
Thursday 28 March	Term ends 3.45pm

Summer Term 2024 Monday 15 April	Pupils return
Monday 6 May	Bank Holiday
Mon 27 May - Fri 31 May	Summer Half-term
Friday 19 July	Term ends 1.15pm

# The School Day

8.30am	Pupils arrive
8.35am	Warning bell
8.40 – 8.45am	Registration and prayer
8.45 – 9.40am	Lesson 1
9.40 – 10.35am	Lesson 2
10.35 – 10.55am	Break
10.55 - 11.50am	Lesson 3
11.50am-12.45pm	Lesson 4
12.45-1.50pm	Lunch
1.50 – 1.55pm	Registration and prayer
1.55 – 2.50pm	Lesson 5
2.50 – 3.25pm	Lesson 6
NB: Timetable for Wednesday mornings (Week A and Week B)	
8.40 – 8.55am	Form Period
	Lesson 1
9.45 – 10.35am	Lesson 2

The rest of the day will follow the usual schedule

### School opening times

Pupils may be on site from 8.00am. Food is available from the Pod at 8.15am

#### **Parental Contact with School**

Parents are welcome to telephone or call to the school if they have a message to convey or an enquiry to make. If a parent has a concern, he or she is invited to telephone the school to make an appointment to see the Form Teacher or the Head of Year. Parents should expect a call back in 48 hours if the query is not urgent or otherwise, 24 hours. Please do not turn up to school and expect to be seen immediately by a member of staff as it is likely that this may not be possible.

The email address for parents of Year 7 pupils to contact the school office is yearseven@uptonhall.org

To protect the health and safety of all the pupils, parents are asked NOT to drive vehicles into the grounds or stop outside the gates.

# Cognitive Abilities Test (CAT) & PASS Survey

In the first term of Year 7 at Upton, all pupils undertake the CAT tests and the PASS Survey.

The **Cognitive Abilities Test** (*CAT*) is an assessment of a range of reasoning skills. The test looks at reasoning with three types of symbols: words, numbers and shapes or figures, i.e. verbal, quantitative and non-verbal reasoning. The verbal reasoning element assesses reasoning processes using the medium of words. Such processes include: identifying relationships between things (e.g. 'big' is the opposite of 'small'); creating correlates of such relationships (e.g. 'big' is to 'small' as 'thick' is to 'thin'); identifying classes ('hat', 'gloves,'

\_\_\_\_\_?': pyjamas, slippers, scarf), and reasoning deductively ('A' is taller than 'B' and 'B' is taller than 'C'; therefore 'A' is taller than 'C'). It is not therefore an assessment of reasoning with words, nor wider language skills such as speaking, listening or writing.

The quantitative tests look at the same processes but use numbers as the symbols. For example, determining rules by analogy and applying these to new cases (2->3, 9->10, 6->\_? (7)), determining patterns and relationships in series (1, 4, 7, ? (10)), or combining elements to form number sentences. The non-verbal tests again look at reasoning processes but use shapes and figures.

#### What does PASS do?

Your child will also take a PASS (Pupil Attitudes to Self and School) survey which uncovers emotional or attitudinal problems (such as low self-regard or attitudes to attendance) likely to hinder achievement at school. Using PASS means that we can identify barriers to learning such as low self-esteem and take swift action to put it right. Because PASS reports are reliable and backed by national benchmarks, they give us evidence that enables us to respond confidently and sensitively before the issue has become entrenched.

It's a short self-evaluation digital survey which takes just 20 minutes. Pupils are asked to respond to a series of statements about learning and school, corresponding to these nine standardised factors proven to be significantly linked to educational goals:

Attitudinal factor	What it measures
1. Feelings about school	Explores whether a pupil feels secure, confident and included in their learning community.
2. Perceived learning capability	Offers an insight into a pupil's level of self-respect, determination and openness to learning.
3. Self-regard	Equivalent to self-worth, this measure is focused specifically on self-awareness as a learner, highlighting levels of motivation and determination.
4. Preparedness for learning	This measure covers areas such as study skills, attentiveness and concentration, looking at the pupil's determination and openness to learning.
5. Attitudes to teachers	This measures a young person's perceptions of the relationships they have with the adults in school. A low score can flag future problems.
6. General work ethic	Highlights the pupil's aspirations and motivation to succeed in life, this measure focuses on purpose and direction, not just at school, but beyond.
7. Confidence in learning	Identifies a pupil's ability to think independently and to persevere when faced with a challenge.
8. Attitudes to attendance	Correlating very highly with actual attendance 12 months later, this measure enables teachers to intercede earlier with strategies to reduce the likelihood of truancy.
9. Response to curriculum demands	This measure focuses more narrowly on school-based motivation to undertake and complete curriculum-based tasks, highlighting the pupil's approach to communication and collaboration.

# **Online Safety**

The Internet can be a wonderful tool but can also pose challenges to young people's safety and wellbeing.

Conduct: children may be at risk because of their own behaviour, for example, by sharing too much information or spending too long online

Children need to be aware of the impact that their online activity can have on both themselves and other people, and the digital footprint that they create on the internet. It's easy to feel anonymous online and it's important that children are aware of who is able to view, and potentially share, the information that they may have posted. When using the internet, it's important to keep personal information safe and not share it with strangers. Discuss with your child the importance of reporting inappropriate conversations, messages, images and behaviours and how this can be done.

When children feel anonymous online sometimes this can tempt them to use social media in unkind ways, often saying things they would never say face-to-face. It is important your child understands how hurtful this conduct can be and that posting or liking unkind messages or images is potentially bullying.

Some young people's use of social media or games can affect their wellbeing, especially if it prevents them getting a good night's sleep.

### Content: age-inappropriate or unreliable content can be available to children

Some online content is not suitable for children and may be hurtful or harmful. This is true for content accessed and viewed via social networks, online games, blogs and websites.

### Contact: children can be contacted by bullies or people who groom or seek to abuse them

It is important for children to realise that new friends made online may not be who they say they are and that once a friend is added to an online account, you may be sharing your personal information with them. Regularly reviewing friends' lists and removing unwanted contacts is a useful step. Privacy settings online may also allow you to customise the information that each friend is able to access. If you have concerns that your child is, or has been, the subject of inappropriate sexual contact or approach by another person, it's vital that you report it to the police via the Child Exploitation and Online Protection Centre (<u>www.ceop.police.uk</u>). If your child is the victim of cyberbullying, this can also be reported online and offline. Reinforce with your child the importance of telling a trusted adult straight away if someone is bullying them or making them feel uncomfortable, or if one of their friends is being bullied online.

## Commercialism: young people can be unaware of hidden costs and advertising in apps, games and websites

Young people's privacy and enjoyment online can sometimes be affected by advertising and marketing schemes, which can also mean inadvertently spending money online, for example within applications. Encourage your children to keep their personal information private, learn how to block both pop ups and spam emails, turn off in-app purchasing on devices where possible, and use a family email address when filling in online forms.

#### Tips for online safety

It is vital that you know what your children are doing online and who they are talking to. Ask them to teach you to use any applications you have never used.

Keeping the computer in a family room means that you can share your child's online experience – and that they are less likely to act inappropriately (i.e. via webcam). Be aware of how they are using their phones.

Help your children to understand that they should never give out personal details to online friends – personal information includes their messenger ID, email address, mobile number and any pictures of themselves, their family or friends. If your child publishes a picture or video online, anyone can change it or share it. Remind them that anyone may be looking at their images and one day a future employer could!

If your child receives spam/junk email texts, remind them never to believe them, reply to them or use them. It's not a good idea for your child to open files that are from people they don't know. They won't know what they contain – it could be a virus, or worse – an inappropriate image or film. Help your child to understand that some people lie online and therefore it's better to keep online friends online. They should never meet with any strangers.

Always keep communication open for a child to know that it's never too late to tell someone if something makes them feel uncomfortable. Teach young people how to block someone online and how to report them if they feel uncomfortable. The Thinkuknow website offers a range of useful videos which it may be helpful to watch with your child.

Set an online 'curfew' to ensure your child's use of the internet is not interfering with their sleep. Consider buying them an alarm clock so that they can leave their phone downstairs for the night.

Further advice and information is available from the Child Exploitation and Online Protection Centre (CEOP). A link to this agency can be found on the school website.

It is really important to chat with your children on an ongoing basis about staying safe online. Not sure where to begin? These conversation starter suggestions can help.

- 1. Ask your children to tell you about the sites they like to visit and what they enjoy doing online.
- 2. Ask them about how they stay safe online. What tips do they have for you, and where did they learn them? What is OK and not OK to share?
- 3. Ask them if they know where to go for help, where to find the safety advice, privacy settings and how to report or block on the services they use.
- 4. Encourage them to help someone! Perhaps they can show you how to do something better online or they might have a friend who would benefit from their help and support.
- 5. Think about how you each use the internet. What more could you do to use the internet together? Are there activities that you could enjoy as a family?

## Attendance

Simply put – if your daughter does not attend Upton Hall she will not achieve. We want all pupils and Sixth Form students to achieve high levels of attendance and give themselves the very best chance in life. There are 175 non-school days per year for holidays, shopping and appointments. There is no need, except in extreme circumstances to miss a day's education. If your daughter misses one session in a week (remember, there are two sessions per day) her attendance will be 90%. This may look acceptable but it means she will miss 19 days of education in a year and risk dropping one grade in each of her GCSE exams (DfE research statistics)

If Covid-19 affects your daughter's attendance, we expect her to work from home remotely.

We take absence seriously. We target intervention with students whose attendance falls below our target of 97% or better. We use "truancy call" which is an automated message system that will keep ringing parents to request explanations for absence. If a response is not received letters are sent home to resolve reasons for absence and reduce likelihood of future absence.

### Absence to be granted only under exceptional circumstances

From September 2013, schools may **not** grant leave of absence during term time unless there are 'exceptional circumstances'. **Therefore, the Headmistress can no longer authorise holidays or extended leave**.

This is the result of amendments that have been made to the 2006 pupil registration regulations in the Education (Pupil Registration) (England) (Amendment) Regulations 2013, which will come into force on 1 September 2013. The 2013 amendments to the 2006 regulations remove references to family holidays and extended leave as well as the statutory threshold of 10 school days.

Upton Hall School will pursue penalty notices with parent(s)/guardian(s) where a pupils' school attendance is at an unacceptable level. This is in line with amendments that have been made to the 2007 penalty notices regulations in the Education (Penalty Notices) (England) (Amendment) Regulations 2013. These amendments came into force on 1 September 2013. Furthermore, if the absence is not authorised then the pupil may be deleted from the roll after 20 school days. In such an event the parent/guardian(s) would have to re-apply for a place at the school.

#### Punctuality

We want to work closely with you to make clear to all our pupils the message that attending punctually will mean higher levels of attainment. Arriving just 5 minutes late every day equals 3 days of education lost over the whole year. Arriving half an hour late every day is equivalent to 18 days' absence. No employer would tolerate this.

#### It is vital we work to teach our pupils the value of attending Upton Hall at 8.30am each day.

We do understand that on some occasions children may be ill and unable to attend school.

Please make sure you call the school's absence line 0151 641 8133 on every day of absence and follow this up with a note or letter explaining the reason for absence. You may email <u>attendance@uptonhall.org</u> with any evidence of medical appointments, etc.

# **Charging Policy**

Except in the case of activities which fulfil any requirement of a syllabus for a prescribed public examination or of the National Curriculum, the cost of activities which take place wholly or mainly outside normal school hours must be met in full by parents. From time to time, the cost may be reduced by fund-raising or by subsidy from school funds.

It is the policy of the Governing Body:

- to make the appropriate charge to parents for all board and lodging requirements on residential visits;
- to charge for activities wholly or mainly outside school hours, where appropriate;
- to ensure that, on occasions where charges may be made, no pupil is disadvantaged solely by her inability to pay;
- to leave to the Head's discretion the proportion of costs for an activity which can properly be charged to public or non-public funds;
- to encourage and support:
  - a) the work of the Friends of Upton Association which sustains and subsidises a wide range of school activities and resources, and
  - b) the maintenance of the voluntary School Fund;
- to ask parents of pupils who do practical subjects such as Technology or Art to provide their own
  ingredients and/or materials for the finished products which they will take home;
- to charge pupils travel expenses for work experience and to refund excess costs over normal daily travel;
- to charge the entry fee for examination of any pupil who, in the Head's judgement, has not prepared herself adequately by effort or study, or of any pupil who, without adequate reason, does not sit an examination for which she has been entered. A charge will be made for re-sits;
- to submit to the Headmistress and Chairman any issue which may require a decision over implementation of the policy in any particular circumstance.

# **General Regulations**

- Pupils are expected to behave in a responsible and courteous manner, showing respect to their teachers, fellow pupils and all members of the school community. Considerate and appropriate behaviour is expected at all times, including the journey to and from school. Any behaviour which demeans another through bullying will not be tolerated.
- Pupils are expected to obey the health and safety rules of the school and of each departmental area.
   Pupils may not leave the school premises without permission. All absences must be authorised by the school.
- ◆ Uniform rules are strictly enforced. Skirts must be of knee length. Shoes must have a heel of no more than 1½" and be appropriate for a day's movement around school. They must be black leather or leather look that can be polished. All items of clothing and personal belongings must be marked with the owner's name. Make-up and nail varnish are not allowed for Years 7 11.
- School Bags: All pupils should have a plain black waterproof bag for their school books. Logos, flashes
  of colour or brand names are not acceptable. It must have handles and be large enough to carry and
  protect large text books and files. Plastic carrier bags and bags with drawstring ties are not acceptable
  and will not be allowed.
- Jewellery and other valuable objects should not be brought to school. The only permitted jewellery is a watch. Expensive watches (including smart watches) should not be worn for school. Money should be kept in a blazer pocket and never left in cloakrooms or in school bags. Each pupil has a locker which must be kept locked. Padlocks are purchased in Year 7.
- PE Kit should be brought to school on the days of PE lessons and taken home when appropriate.
- The school accepts no responsibility for pupils' money or effects lost or damaged on school premises.
- Pupils are **NOT** permitted to bring the following items into school:
  - > Magazines
  - Radios
  - Playing cards
- Chewing gum and any sort of aerosol are strictly forbidden in school.

Study Hall will be attended during the lunch break by any pupil who has not completed homework. School detention is held for pupils where behaviour needs to improve.

Pupils are allowed to bring their mobile phone to school. As soon as pupils get into school their phone must be switched off and placed in her bag. If a pupil is found using a mobile phone around the school or in a lesson, the phone will be confiscated and handed to the school administrative office. Mobile phones will be returned when a parent comes into school to collect them between the hours of 3.45pm and 4.30pm daily.

### WHAT DO WE MEAN BY BULLYING?

### Bullying can take many forms:

- physically hurting someone
- verbally threatening someone
- making a person feel isolated and alone by encouraging others to exclude or ignore them
- calling someone names or commenting on their race, sexuality, family, clothes, appearance or ability
- interfering with or destroying another's property
- intimidation through the use of social media or mobile phone texting

Bullying is a repeated attack which causes distress not only at the time of each attack, but also by the threat of future attacks.

### Definitions of bullying written by pupils at Upton:

- A bully is someone who picks on you and hurts you physically or with what they say or how they behave online
- A bully is someone who threatens or mocks another person and gets pleasure out of making fun of them
- A bully is someone who makes your life very unhappy
- A bully is someone who goes out of their way to upset and depress others for their own enjoyment
- A bully makes you feel afraid

### What should we do if we think bullying is happening?

### If I feel I am being bullied, I should:

- talk to someone I trust: my Form Teacher or Head of Year, a member of staff, a Senior Prefect or one of the Well-Being Champions
- tell my parents/carers about what is happening
- be prepared to write down what has happened and my feelings about it
- try to remain calm and avoid retaliation

### If I think someone else is being bullied I should:

- offer support and companionship in a gentle manner
- be prepared to tell my Form Teacher, my Head of Year, a member of staff, a Senior Prefect or one of the Well-Being Champions
- refuse to be drawn into any group situation in which one person is feeling isolated or mocked

### If I am bullying someone, I should:

- stop the behaviour immediately
- try to put myself in the shoes of the other person and treat them as I would want to be treated myself
- behave in a kind and courteous manner to the person I have bullied
- apologise

A full copy of these policies including the Complaints procedure are available on the school website <u>www.uptonhallschool.co.uk</u>
