

Please work through the following questions from the attached document.

As you progress, please mark your work (answers are at the back of the document), take pictures and submit them through Google Classroom. This should be done before starting Sixth Form in September. In the first week, please bring this work with you.

For all questions, you are expected to have read the accompanying notes when stuck, and to have attempted to answer the question. If there are areas where you are stuck, you will be expected to attend lunchtime Maths Support at least two times per week until all the work has been completed. It might seem difficult in places, but it is a fair reflection of the level you will need to be working at for the start of year 12 if you are to be successful in A Level Maths.

Page	Exercise	Questions
12	1.2	1(a)(b)(i)(j)(k)(l)(m)(n), 2, 3, 4, 5(a)(b)
13	1.2	7
17	1.3	4, 5
18	1.3	7, 8
22	1.4	1, 2, 4, 5
25	1.5	Whole exercise
28	1.6	Whole exercise
33	2.1	1
35	2.2	1
42	3.2	1, 3, 5, 7, 9, 11
45	3.3	4, 8, 10, 14
